### DETAILED ACTION

1. The amendment filed on 12/29/06 has been entered. Applicant has amended the claims 1, 5, and 6. Claims 2-3 are cancelled.

### *Response to Arguments*

2. Applicant's arguments, see Applicant Remarks, filed on 12/29/06, with respect to the amended claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn.

### *Election/Restrictions*

3. Claims 4-7 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 4-7, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, claims 4-7 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 3/20/06 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

Art Unit: 2841

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

4. Claims 1 and 4-7 are allowed.

***Reasons for Allowance***

5. The following is a statement of reasons for the indication of allowable subject matter: Applicant has added the allowable limitation previously disclosed in the dependent claim 3 in the independent claim 1. For clarification, the best prior references art of record, Nakamura et al. (US 20020081905) and Onizuka et al. (US 6472772), taken alone or in combination, fail to teach or fairly suggest that the connecting part positioned outside the substrate adhesion region in a plan view as claimed by the applicant. Beside the best prior references art of record, none of the references art of record shows or suggests in any combination a bus bar structure as claimed by the applicant. Furthermore, it is unseasonable to combination any of these references art, because any combination of the references art will produce a nonfunctioning structure to the base reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
